A Safe Harvest is Always Sweet

It's never a bad time to brush up on farm safety, but with harvest just around the corner there's no better time for a helpful reminder. Being cognizant of a few crucial safety tips can mean the difference between life and death. Although farm safety can seem like common sense, it's easy to forget the safest practices in the midst of a hectic harvest. We want all our growers to be as safe as they are successful, so we thought we'd offer a few tips to keep you injury free this fall.

Turn Off Your Machine

Whether you have a clog or a break-down, make sure you always turn off any piece of equipment before trying to resolve the issue.

Get Enough Rest

It's easy to forget the importance of sleep during round-the-clock beet hauling, but try to get ample rest to ensure you're awake and clear headed when operating machinery.

Train Your Employees

With the abundance of seasonal employees hired on to help with the harvest, it's easy to overlook their abilities operating equipment. Make sure all your workers are capable or operating equipment safely.

Stay Safe on the Roads

There are enough potential dangers in the field. Make sure you and your employees remain aware and safe when transporting equipment or beets over the highway.

Enjoy Yourself

Harvest is the time of year you finally get to enjoy the rewards of another season of hard work. A safe, injury free harvest makes success that much sweeter.

Growing Partnerships

Seedex, Inc. is a sugarbeet seed company that breeds plant varieties and produces high quality seeds suitable for the various sugarbeet growing regions of the U.S. and Canada.

Seedex is dedicated to research, and has a long tradition of producing sugarbeet seeds containing superior genetics with fast emergence, strong vigor, outstanding purity, industry-leading sugar, and balanced disease tolerance. In addition, the customer service our grower-dealer network provides is well known in the industry.

Seedex, Inc. was formed in 1987 in Longmont, CO, and is a member of West Coast Beet Seed Company (WCBSC), a non-profit owned by the majority of the world's beet seed companies. WCBSC produces our seed and for all of their owner companies.

Seedex, Inc.'s U.S. Headquarters is located in Fargo, North Dakota, in the middle of the abundant Red River Valley sugarbeet growing region, and is owned by the Florimond DesPrez Group, an independent, family-owned French company that is a world leader in the sugarbeet breeding and seed industry.
